

PDEOZE PowerContainer

1gw energy storage power station

Overview

What is New York's first bulk energy storage request for proposals?

New York Gov. Kathy Hochul has launched New York's first bulk energy storage request for proposals (RFP), intended to procure 1 GW of bulk energy storage as part of New York's 6-GW energy storage roadmap. An energy storage project in Hubbardston, New York. (Credit: Greg M. Cooper/Borrego).

Will energy storage help a modern power grid?

Alliance for Clean Energy New York Executive Director Marguerite Wells said, "Energy storage will provide many benefits to a modern power grid, including the ability to fully harness our most cost-effective energy solutions in wind and solar.

Will Constellation Energy Plant be one large-scale plant?

Citing a need to achieve "energy independence," it is unclear whether the plant will be one large-scale unit or will encompass several small modular reactors (SMR). Sites under consideration include three existing plants owned by Constellation Energy in upstate New York, according to WSJ.

Are energy storage projects required to meet new fire safety codes?

Any NYSERDA-supported energy storage projects are contractually required to meet the new storage safety codes adopted last week into Uniform Code by the State Fire Prevention and Building Code Council, which reflect the work and recommendations from the New York State Inter-Agency Fire Safety Working Group (FSWG).
