440 solar panel price

Overview

Price: \$231.0 per panel (\$0.52 per watt).

Price: \$231.0 per panel (\$0.52 per watt).

440 watt solar panel price is generally a bit higher than the price of most popular panels for residential installations. Which makes sense — a 440W solar panel allows you to harvest more electricity from a square foot. Currently, our online store offers a great monocrystalline model of 440W solar.

Pay \$600.00 after \$50 OFF your total qualifying purchase upon opening a new card. Return this item within 90 days of purchase. AI-generated from the text of manufacturer documentation. To verify or get additional information, please contact The Home Depot customer service. Nature Power.

Black 35mm Frame, Black Backsheet, 108 Half cells. Silfab's breakthrough in advanced N-type solar cell technology delivers premium all-black solar panels of unmatched performance and reliability. Silfab is the leading automated solar module manufacturer in North America. Utilizing premium quality.
