Do you need a portable battery or power bank?

Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful. But there's an easy solution: a portable battery or power bank. They are available in many sizes and capacities and can include handy features like fast charging and multiple ports.

Is mycharge a good portable power bank?

The charging cord is shorter than other models. This portable power bank from myCharge earned the top slot in our test for its portability, battery life, and ability to accommodate both iPhone and Android models. Thanks to the USB port, type C, and lightning cable adapters included, you don't have to bring your own cables.

How accurate is a power bank?

The power display accuracy is up to 100% which ensures you know the remaining power clearly and never missing recharging in time. This power bank is also equipped with a portable leather handle, which is easier to carry and has no burden to use outdoors.

Which power bank should I buy?

If you're looking for a compact power bank with decent capacity, Anker's Nano Power Bank is my pick, but watch out because the company has several power banks with the same name. This model has a 10,000 mAh capacity, a 2.3-foot retractable cable, and the ability to charge devices at up to 45 watts.

Which power bank charger should I buy?

If there is a chance your power bank will become submerged, then this is the one you want. The Powerness U36 10050mAh Power Bank Charger with LED is perfect for day trips and keeping in your backpack on hikes. The new carabiner fastener also means you can fasten it to your backpack if using it with a solar charger.
