American Solar Remote Control System

RICH SOLAR offers off-grid solar power products including solar panels, lithium batteries, inverters, charge controllers, and more to build energy independence.

If your project is flanked by open corners or decorative columns, or you want an exterior-mounted solar shade, we'll install your screen using a self-tensioning cable-guide system that doesn't ...

This guide is designed to walk you through the steps and features of how to use solar light remote control, ensuring you can maximize the functionality and efficiency of your solar lighting system with ease.

Motorized blinds or shades offer the ultimate convenience for solar control. Choose from battery, hardwired, or automated solar tracking, all of which are cordless Child-Safe by design.

System overview: Displays real-time data on battery voltage, solar panel output, and controller status. Controller settings: Allows users to adjust charging parameters, battery protection ...

Ensure correct wiring with solar panels and battery. Reverse polarity can cause controller/device damage. The controller is compatible with both ...

A compact, 3-button remote that allows wireless control of up to three connected 12V devices. Each button corresponds to one of the three output channels on the MultiControl unit.

Ideal for wall-mounted or control-panel integration, this screen kit simplifies remote monitoring and control through a quick RJ45 connection. With its clean design and reliable communication, it's ...

At Exeger, we create and produce solar cells that enhance products such as solar-powered remote controls. Our solar cells enable eternal battery life, with no compromise on design or ...

This guide is designed to walk you through the steps and features of how to use solar light remote control, ensuring you can maximize the functionality and efficiency of your ...

Ensure correct wiring with solar panels and battery. Reverse polarity can cause controller/device damage. The controller is compatible with both 12V and 24V solar panel, the PV open circuit ...

At Exeger, we create and produce solar cells that enhance products such as solar-powered remote controls. Our solar cells enable eternal battery life, with no compromise on design or change in user behavior.

The Solar Remote Monitor provides panel charging information, real time system monitoring and is required for battery setting and configuration setting changes to our range of regulators.
