Argentina s high-performance energy storage battery

Overview

Argentina has successfully concluded its first battery energy storage tender, awarding 667 MW of capacity – around 30% more than the originally planned 500 MW – due to strong industry interest and competitive pricing. How many MW of battery energy storage in Argentina?

Argentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its original 500-MW target by about 30%. Energy storage battery. Photo by Anna Vasileva.

Can battery energy storage modernize the grid in Argentina?

The. Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico) confirming the submission of 27 project proposals from 15 companies under its AlmaGBA program.

Why is energy storage important in Argentina?

The implementation of storage solutions aims to prevent power outages, improve system efficiency, and ensure a stable electricity supply during high-demand periods. This initiative marks Argentina's first large-scale adoption of energy storage technology.

Who will sign the energy storage contracts in Buenos Aires?

The energy storage contracts will be signed with leading electricity distributors in Buenos Aires, Edenor, and Edesur, while the Wholesale Electricity Market Administration Company (CAMMESA) will be the guarantor.

How much is a battery energy storage system (BESS) project worth?

The Energy Secretariat of Argentina's Ministry of Economy has launched a global tender for 500 MW of battery energy storage system (BESS) projects in

the Metropolitan Area of Buenos Aires' (AMBA) critical nodes. The project's estimated value is \$500 million, with an execution period of 12 to 18 months.

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.

Jul 18, 2025 · Argentina's battery energy storage systems tender receives 1.3 GW in bids--more than double its target--highlighting growing demand for grid resilience solutions.

Sep 1, 2025 · Argentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its ...

Jul 21, 2025 · Argentina has received more than 1.3GW of energy storage applications for its first battery energy storage system (BESS) tender.

Jul 22, 2025 · Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora ...

Jul 21, 2025 · Argentina has received more than 1.3GW of energy storage applications for its first battery energy storage system (BESS) tender.

Jul 22, 2025 · Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Sep 2, 2025 · In addition to awarding 30% more capacity than originally planned, Argentina's first battery energy storage tender could allocate an additional 222 MW to bidders willing to match ...

Jul 22, 2025 · Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Feb 25, 2025 · The Energy Secretariat of Argentina's Ministry of Economy has launched a global tender for 500 MW of battery energy storage system (BESS) projects in the Metropolitan Area of Buenos Aires' (AMBA) critical ...

Jul 18, 2025 · Argentina's battery energy storage systems tender receives 1.3 GW in bids--more than double its target--highlighting growing demand for grid resilience solutions.

Feb 19, 2025 · The Ministry of Economy of Argentina has issued a national and international open call "GBA Storage -AlmaGBA", aimed at contracting 500 MW of electric energy storage plants ...

Sep 1, 2025 · Argentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its original 500-MW target by about ...

Sep 3, 2025 · Argentina's first battery energy storage tender awards 667 MW to enhance grid reliability and attract investment in next-generation storage projects.

Oct 8, 2025 · The AlmaGBA initiative, Argentina's largest battery storage procurement scheme, had already topped its initial aim by awarding contracts for 667 MW of sites. The energy authority noted the BESS will provide ...

Sep 2, 2025 · In addition to awarding 30% more capacity than originally planned, Argentina's first battery energy storage tender could allocate an additional 222 MW to bidders willing to match the highest awarded price.

Feb 25, 2025 · The Energy Secretariat of Argentina's Ministry of Economy has launched a global tender for 500 MW of battery energy storage system (BESS) projects in the Metropolitan Area ...

Oct 8, 2025 · The AlmaGBA initiative, Argentina's largest battery storage procurement scheme, had already topped its initial aim by awarding contracts for 667 MW of sites. The energy ...
