Australian solid-state battery energy storage factory

Overview

In a statement, eLumina Chief Executive Officer Lisa Marsh said the new factory, located at Yatala on the northern Gold Coast, will strengthen Australia's energy storage sector and help meet soaring global demand for batteries.

Australian solid-state battery energy storage factory

Big battery projects currently being rolled out in Australia are more than ten times bigger than the first installed eight years ago at Hornsdale. Here are the 10 biggest.

By adopting solid-state battery manufacturing, Australia positions itself at the forefront of sustainable energy storage solutions, supporting both environmental preservation and technological advancement.

At this year's All Energy Australia, Ampace spotlights its semi-solid-state LFP battery cells -- engineered to prevent leakage and eliminate fire risks.

The Collie Battery Energy Storage System (CBESS) is a large-scale energy storage facility developed by Synergy, located adjacent to the Collie Power Station in Western ...

MELBOURNE, Australia, Oct. 29, 2025 /PRNewswire/ -- Ampace, a global energy storage innovator, is unveiling its latest breakthroughs in battery and energy storage ...
