

PDEOZE PowerContainer

Belgian containerized energy storage cabinet manufacturer

Overview

Storabelle is at the forefront of the transition to decarbonize industrial heat (P2H) and power (P2P), replacing fossil-fuel boilers with advanced thermal energy storage solutions at competitive cost. Who is Giga storage Belgium?

GIGA Storage Belgium is an energy company that develops and deploys large-scale energy storage projects within the Belgian energy network. We believe that large-scale energy storage from renewable sources provides a solution to phasing out fossil fuels without compromising energy supply.

How can Giga storage help facilitate the nuclear phase-out in Belgium?

Our ambition is to help facilitate the nuclear phase-out by achieving 2025 GW of battery storage in Belgium before 2030. GIGA Storage specializes in large-scale energy storage, investing in projects for optimizing energy supply and ensuring grid stability.

What are battery energy storage systems (BESS)?

Energy storage technologies are critical to this transition, enabling renewable energy sources to contribute a larger share of grid capacity. Battery Energy Storage Systems (BESS) are particularly versatile, with applications ranging from short-to-medium-term utility-scale grid support to commercial and industrial installations.

Where is storabelle located?

STORABELLE has teamed up with key partners, including CEA LITEN, a leading technology solutions provider. As part of our commitment to being at the heart of the emerging Energy Valley, we've strategically situated our headquarters on the first floor of the iconic orange building within the Techn'hom industrial hub in Belfort.

Will Giga storage be the largest battery in Europe?

While this project will be the largest battery in Europe, much more storage

capacity will be needed in the coming years. GIGA Storage aims to continue playing a significant role with its ambition of 5 GW installed capacity by 2030.

Who is storabelle partnering with?

In addition to our in-house team, we have partnered the CEA LITEN. The process involves rigorous research, testing, and innovation. STORABELLE has teamed up with key partners, including CEA LITEN, a leading technology solutions provider,
