Bosnia and Herzegovina solar communication base station energy storage bidding

Overview

Does Bosnia and Herzegovina provide security of electricity supply statements?

Bosnia and Herzegovina is not providing the Security of Electricity Supply Statements to the Secretariat despite its obligation under Article 29 of the Treaty.

Is there a PEI project in Bosnia and Herzegovina?

There is no PEI project in the territory of Bosnia and Herzegovina, chosen under the procedure launched in 2024 for the Energy Community which relates to gas or hydrogen.

Why is Bosnia & Herzegovina's energy sector so vulnerable?

This delay persists despite the ENTSO-E cybersecurity report from 2022, which identified Bosnia and Herzegovina's energy sector as one of the most vulnerable in the region due to outdated infrastructure and insufficient cybersecurity investments.

Are energy measures subject to state aid assessment in Bosnia and Herzegovina?

However, in the current reporting period, no measures in the energy sector have been subject to State aid assessment in Bosnia and Herzegovina. Additional human resources would significantly enhance the capabilities of the SAC, allowing for more proactive investigations into State aid measures.

Does Bosnia and Herzegovina have a national energy and Climate Plan?

Bosnia and Herzegovina submitted an updated descriptive part of its National Energy and Climate Plan (NECP) on 28 June 2024, as well as a summary of how the Secretariat's recommendations had been taken into account.

How many companies operate the gas Transmission system in Bosnia and

Herzegovina?

Three companies in Bosnia Herzegovina operate the gas transmission system. In the Federation of Bosnia and Herzegovina, one company operates the transmission network as an exclusive and sole task in line with the Decree on Organisation and Regulation of the Gas Sector, but there is no legal basis for unbundling under the Third Energy Package.

Bosnia and Herzegovina solar communication base station energy s

Bosnia and Herzegovina is not providing the Security of Electricity Supply Statements to the Secretariat despite its obligation under Article 29 of the Treaty.

There is no PECl project in the territory of Bosnia and Herzegovina, chosen under the procedure launched in 2024 for the Energy Community which relates to gas or hydrogen.

This delay persists despite the ENTSO-E cybersecurity report from 2022, which identified Bosnia and Herzegovina's energy sector as one of the most vulnerable in the region due to outdated infrastructure and insufficient cybersecurity investments.

However, in the current reporting period, no measures in the energy sector have been subject to State aid assessment in Bosnia and Herzegovina. Additional human resources would significantly enhance the capabilities of the SAC, allowing for more proactive investigations into State aid measures.

Bosnia and Herzegovina submitted an updated descriptive part of its National Energy and Climate Plan (NECP) on 28 June 2024, as well as a summary of how the Secretariat's recommendations had been taken into account.
