Brazil Hydrogen Energy Site

Overview

Brazil's state of Ceará, home to the Pecém Industrial and Port Complex, stands at the center of a high-stakes energy and technology push. The region has attracted R\$128 billion (about \$25 billion) in planned investments for green hydrogen and data center projects.

Brazil Hydrogen Energy Site

In Brazil, for example, the development of a green hydrogen hub in the Port of Pecém, Ceará, is positioning the country as a potential hydrogen exporter, with a focus on ...
