

PDEOZE PowerContainer

Bulgarian energy storage power supply manufacturer

Overview

Built by Bulgarian renewable energy system and microgrid controls company International Power Systems (IPS), all components of the BESS units, except the lithium iron phosphate (LFP) battery cells, are designed and manufactured by IPS in-house.

Built by Bulgarian renewable energy system and microgrid controls company International Power Systems (IPS), all components of the BESS units, except the lithium iron phosphate (LFP) battery cells, are designed and manufactured by IPS in-house.

International Power Supply (IPS), a Bulgarian manufacturer of battery energy storage systems, is about to launch operations at its new facility near Sofia. Its latest model has 8.2 MWh and fits into a standard container. The company plans to double the factory's annual capacity to 3 GWh already by.

Production has begun at a battery energy storage system (BESS) factory designated as a project of strategic importance by the European Commission (EC) due to its use of local supply chains. An inauguration event was held earlier this month (10 October) for the factory, at Hemus High-Tech Industrial.

Bulgarian company International Power Supply (IPS) has launched construction of its second battery energy storage system (BESS) production facility in Sofia, Bulgaria, which will boost its annual BESS production capacity to 4,000 MWh.
