Burundi invests in energy storage power station project

Overview

The project is funded by the European Investment Bank (EIB), African Development Bank (AfDB), World Bank, and the European Union. It includes two hydropower plants—Jiji and Mulembwe—built on small rivers in Burundi's Bururi Province.

Burundi invests in energy storage power station project

The Jiji hydroelectric power plant, which is the first phase of \$320 million Power Project, was inaugurated on Wednesday, 25th June 2025, by Burundi's President Évariste Ndayishimiye.

The Jiji power plant is part of a large energy project supported by a consortium of donors, including the World Bank, the African Development Bank, and the European Union.

The Jiji power plant is part of a large energy project supported by a consortium of donors, including the World Bank, the African Development Bank, and the European Union.
