Cameroon Power Plant Off-Grid Energy Storage Project

Overview

Where are Eneo solar & battery storage plants located in Cameroon?

Release entered into a lease agreement with ENEO, an electricity company, in 2021 to deliver two solar hybrid and battery storage plants that have a combined capacity of 36MW solar and 20MW/19MWh of storage. The plants are located in Maroua and Guider, in the Grand-North Cameroon.

Who is benefiting from Cameroon's two solar power projects?

Residents and industries are benefiting from the two solar power projects in the northern parts of Cameroon.

When is release by Scatec launching solar plants in Cameroon?

22 September 2023, Cameroon: Today, Release by Scatec celebrates the inauguration of the solar plants in Cameroon. Release entered into a lease agreement with ENEO, an electricity company, in 2021 to deliver two solar hybrid and battery storage plants that have a combined capacity of 36MW solar and 20MW/19MWh of storage.

Are solar power plants generating electricity in Cameroon?

The solar power plants have been completed in phases generating electricity throughout 2022 and are now fully completed. There have been reports of significant improvements of electricity supply in the northern parts of Cameroon. Regions that fall under the Northern Interconnected Network were prone to experiencing power outages.

Does Cameroon have a mobile off-grid photovoltaic system?

Recently, Cameroon obtained eKiss (energy-keep it simple and safe) mobile off-grid photovoltaic systems from Antaris Solar . This technology is capable of generating electricity on a standalone basis.

What is Cameroon's energy plan?

The government of Cameroon has set an ambitious vision to expand access to electricity, increase the use of renewable energy, boost power generation, and strengthen transmission capacity to meet a surge in demand, projected to quadruple by 2035.
