Canada One City One Energy Storage Project

Overview

What is the Oneida energy storage project?

The Oneida Energy Storage Project has officially commenced commercial operations. The project was completed ahead of schedule and under budget and is the largest battery energy storage facility in operation in Canada.

What does the Oneida project mean for Ontario's energy storage capacity?

The Oneida project more than doubles Ontario's current energy storage capacity from 225 MW to 475 MW – a boost that comes amid a broader push to expand energy storage across the province.

How much money does the CIB invest in Oneida energy storage?

The CIB invests up to invest up to \$535 million in the Oneida Energy Storage project, located in Southwestern Ontario.

Canada One City One Energy Storage Project

The Oneida Energy Storage Project has officially commenced commercial operations. The project was completed ahead of schedule and under budget and is the largest battery energy storage facility in operation in Canada.

The Oneida project more than doubles Ontario's current energy storage capacity from 225 MW to 475 MW - a boost that comes amid a broader push to expand energy storage across the province.

The CIB invests up to invest up to \$535 million in the Oneida Energy Storage project, located in Southwestern Ontario.

The project is the largest of its kind in Canada and amongst the largest in the world. It will provide a gigawatt-hour of much needed capacity to the Ontario grid, while prioritizing local Indigenous ...

A new battery storage facility in Ontario, Canada, is pioneering electricity management on the grid and cleaner, more reliable energy. The Brantford Expositor reported ...

The project will provide clean, reliable power capacity by drawing and storing renewable energy during off-peak periods and releasing it to the Ontario grid when energy demand is at its peak.

July 25, 2025 - With 278 lithium-ion battery units--each weighing more than 84,000 lb--now drawing and storing power from Ontario's electricity grid, the Oneida Energy Storage Project ...

Located in Haldimand County, Ontario, Oneida is a 250 MW / 1,000 MWh battery storage facility. It is Northland's first operational energy storage project in Canada. The project ...
