China Communications 5G Base Station Centralized Procurement

Overview

Who won 5G wireless network equipment centralized procurement contract?

Huawei has won a \$574 million (4.1 billion yuan) 5G wireless network equipment centralized procurement contract. This contract by China Mobile will be carried out from 2023 to 2024. According to the information, this round of centralized procurement is divided into two projects - 2.6GHz/4.9GHz and 700M.

Who are 5G base stations suppliers?

Suppliers of 5G base stations were benefited from the rapid development of 5G technology. Huawei, Ericsson, Nokia, ZTE, and Samsung are among the world's leading suppliers. In 2024, these five vendors control almost 96.12 % of the global market. China has installed around 12 times as many 5G base stations as the United States.

How many 5G base stations are there in China?

Xie Cun, director of the information and communication development department at the ministry, said that Chinese operators have already deployed more than 1.15 million 5G base stations, accounting for more than 70% of the global total, and 5G network coverage has been achieved in urban areas of all prefecture-level cities.

Where did China build a 5G signal base in 2021?

In April 2021, according to the Chinese military's official website, at an elevation of 5,374 meters, China had built a 5G signal base at the Ganbala radar station in Tibet's remote Himalayan region, which is the world's highest manually operated radar station.

Who won a 5G contract in China?

Meanwhile, Ericsson, Nokia Shanghai Bell, Datang Mobile, and others also made it up to the list. As the most prominent player, China Mobile awarded a

nearly 4.1 billion yuan (\$574 million) bid to Huawei for its 5G procurement contract. ZTE's winning bid amount exceeded 2.07 billion yuan (\$280 million).

How much did ZTE win a 5G bid?

ZTE's winning bid amount exceeded 2.07 billion yuan (\$280 million). The expansion and centralized procurement of self-built 5G 2.6GHz/4.9GHz base stations. The telecom company co-built and shared 5G 700MHz base station equipment (using a single source method), with a total scale of more than 412,700 stations, and Huawei won the bid.
