Cyprus Energy Storage System Construction Project

100-430KWH

230|400V

Overview

Does Cyprus have a battery energy storage system?

Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated by the Cyprus Transmission System Operator (TSOC).

Will Cyprus install 400MWh battery energy storage system?

Image: Cyprus government / MECI. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country.

How is Cyprus developing pumped hydro energy storage capacity?

The country is also seeking to develop pumped hydro energy storage (PHES) capacity with technical assistance from the European Commission (EC) and is formulating a National Hydrogen Strategy. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects.

How many energy storage applications have been approved in Cyprus?

The Cyprus Energy Regulatory Authority (CERA) representatives reported establishing a regulatory framework for energy storage in 2019, followed by market rules approval in 2021. The Cyprus Transmission System Operator has received 13 storage applications totaling 224 megawatts capacity, with eight applications processed and five under review.

Why does Cyprus waste so much energy?

AKEL MP Costas Costa characterised Cyprus as "the only country in the world where thousands of megawatt-hours go unused due to lack of centralised green energy storage systems," adding: "During the day we waste megawatt-

hours because we lack storage, and at night we are one step away from blackouts.”.

Is Cyprus facing a unique set of energy challenges?

In a keynote address to open a conference on energy storage and hydrogen in March, George Papanastasiou of the Ministry of Energy, Commerce and Industry (MECI) noted that Cyprus faces a “unique set of energy challenges, which require tailored solutions.”

George Papanastasiou of the Ministry of Energy, Commerce and Industry (MECI) noted that Cyprus faces a "unique set of energy challenges, which require tailored solutions."

Jun 6, 2025 · In addition, the project is expected to create jobs in construction, operations, and maintenance, while helping reduce energy costs for consumers by minimizing the need for expensive fossil fuel ...

Jun 20, 2025 · Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy Regulatory Authority ...

Jun 6, 2025 · In addition, the project is expected to create jobs in construction, operations, and maintenance, while helping reduce energy costs for consumers by minimizing the need for ...

Mar 4, 2025 · Cyprus is facing an unusual energy situation where solar systems are being disconnected during daytime hours due to excess electricity production, despite potential ...

Jun 20, 2025 · The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid stability and security, marking a crucial step for the island's electricity ...

Sep 11, 2025 · The Energy Ministry is offering grants to help install battery systems with commercial and industrial solar power projects. The grants are part of Cyprus's broader plan to integrate renewable energy into the ...

Jun 20, 2025 · The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid stability and security, marking a crucial step for ...

Sep 11, 2025 · The Energy Ministry is offering grants to help install battery systems with commercial and industrial solar power projects. The grants are part of Cyprus's broader plan to ...

May 26, 2025 · The Apollon PV Park has commissioned a 3.3 MWh battery energy storage system (BESS) and solar project, in a milestone for Cyprus.

Aug 19, 2025 · Cyprus is rushing to deploy a centralized battery storage system, under indirect state control, on the transmission grid.

May 26, 2025 · The Apollon PV Park has commissioned a 3.3 MWh battery energy storage system (BESS) and solar project, in a milestone for Cyprus.

Oct 6, 2025 · The Department of Environment of Cyprus issued an approval for what could become one of the country's first battery energy storage systems.

Oct 6, 2025 · One of Cyprus's first standalone battery energy storage systems (BESS) has received environmental clearance from the Department of Environment, with the project ...

Jun 20, 2025 · Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy ...

Aug 18, 2025 · The government plans to complete a new energy storage system, along with storage installations at two Electricity Authority of Cyprus (EAC) power plants, by June 2026, ...
