**Doesn t Myanmar have many 5G  
base stations**

## Overview

---

What is 5G in Myanmar?

5G is the next generation of mobile connectivity which replace the current 4G technology currently used by mobile operators in Myanmar. 5G means “fifth generation” and is aimed to deliver faster speeds and lower latency enabling new use cases for mobile data communication. Currently, 4G speeds in Myanmar are among the fastest in the world.

Will atom launch the first 5G service in Myanmar?

ATOM, the operator formerly known as Telenor, has unveiled plans to invest hundreds of millions of dollars in Myanmar in the coming years, one of its goals being to launch the market’s first 5G service. ATOM, or Advancing Telecommunications of Myanmar, to give it its full title, officially launched in Myanmar on Wednesday.

Does Myanmar have 3G & 4G?

tion equates to the number of 3G and 4G mobile services. The data in the above exhibit shows that while Myanmar ranks among the lowest of the ASEAN economies in terms of SIM card penetration, it has a much higher mobile broadband penetration. That is, Myanmar ranks 9th.

Will Myanmar have a 5G rollout?

The government will likely require 5G licence holders to offer coverage nationwide, but this will present serious challenges, and only Myanmar’s major cities would be profitable in the near term. Other challenges to a 5G rollout include an immature handset ecosystem, although it is only a matter of time before 5G compatible devices are commonplace.

Will MNOs be able to deploy 5G in Myanmar?

tilise all or party of the 700 MHz band for 5G coverage. Regardless of whether MNOs decide to deploy 5G initially, Myanmar’s technology neu ral regime

gives MNOs the option to do so in the future. The delay will also allow an assessment whether any of the 700 MHz spectrum band should be further capacity band spectrum (namely the 1500 MHz).

Will MPT be a 5G provider in Myanmar?

Last year MPT has carried out High-Speed LTE expansion in Yangon and Mandalay and 5G trial will be one of MPT's initiatives in satisfying customers. According to GSMA website, as of January 2024, 261 operators in 101 countries had launched commercial 5G services and MPT will be one of the 5G service providers in Myanmar.
