Energy storage battery market share in the first half of 2025

Overview

New data from Rho Motion shows that over half of June's installations were concentrated in China, maintaining the country's dominance in the global energy storage market.

New data from Rho Motion shows that over half of June's installations were concentrated in China, maintaining the country's dominance in the global energy storage market.

New data from Rho Motion shows that over half of June's installations were concentrated in China, maintaining the country's dominance in the global energy storage market. From ESS News Market intelligence firm Rho Motion, the downstream arm of Benchmark Mineral Intelligence, says it tracked 7.95 GW.

Global Energy Storage Battery Market Surges 100% in H1 2025 Amid Policy Tailwinds-OFweek News! The global energy storage battery cell market sustained robust growth momentum in the first half of 2025, driven by comprehensive policy support across major economies. Third-party research platforms.

The Energy Storage Market size is estimated at USD 295 billion in 2025, and is expected to reach USD 465 billion by 2030, at a CAGR of 9.53% during the forecast period (2025-2030). This scale-up rests on falling battery pack prices, policy incentives that reward standalone storage, and a rising.

Energy storage battery market share in the first half of 2025

Our annual Battery Storage Market Map highlights a selection of companies active across the energy storage value chain - from battery manufacturers and system integrators to ...

Global electric vehicle battery installation capacity reached 691.3GWh in January-August 2025, up 34.9% year-over-year. CATL leads with 36.8% market share, followed by ...

The Energy Storage Market size is estimated at USD 295 billion in 2025, and is expected to reach USD 465 billion by 2030, at a CAGR of 9.53% during the forecast period (2025-2030).

The Energy Storage Market size is estimated at USD 295 billion in 2025, and is expected to reach USD 465 billion by 2030, at a CAGR of 9.53% during the forecast period ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, the sector continues to grow as ...

The global energy storage systems market was estimated at USD 668.7 billion in 2024 and is expected to reach USD 5.12 trillion by 2034, growing at a CAGR of 21.7% from 2025 to 2034, ...

The global energy storage market is poised to hit new heights yet again in 2025. Despite policy changes and uncertainty in the world's two largest markets, the US and China, ...

The battery energy storage system market size was evaluated at USD 10.16 billion in

2025 and is predicted to surpass around USD 86.87 billion by 2034 with a CAGR of 26.92%.

This report provides a comprehensive analysis of the global battery energy storage market, covering key factors such as market dynamics, trends, drivers, restraints, ...

The global energy storage systems market was estimated at USD 668.7 billion in 2024 and is expected to reach USD 5.12 trillion by 2034, growing at a CAGR of 21.7% from 2025 to 2034, driven by the increasing integration ...
