# **Energy storage power stations in Timor-Leste**

## Overview

---

Which power stations are in Timor-Leste?

The following lists power stations in Timor-Leste. The Hera power station was built to supply to the north coast of the country, while the Betano power station supplies electricity to the south coast and the Inur Sakato thermal power station provides electricity to the Oecusse District.

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

Does East Timor have electricity?

The Hera power station was built to supply to the north coast of the country, while the Betano power station supplies electricity to the south coast and the Inur Sakato thermal power station provides electricity to the Oecusse District.  
^ "East Timor has electricity across almost its entire territory".

Does Timor-Leste have electricity?

Stakeholders confirmed that the state delivers Timor-Leste's national electricity supply, with no private actors involved. The electricity system's power stations and transmission lines, including those being modernised through assistance from the Asian Development Bank , are shown in Fig. 4.

Did DLA Piper advise Eletricidade de Timor-Leste on power purchase agreement?

DLA Piper advised Eletricidade de Timor-Leste on power purchase agreement for first solar and battery storage project.

Does improved electricity access improve development outcomes in Timor-

Leste?

Overall, Timor-Leste's HDI has shown little improvement since 2010, while electricity access doubled to 100 %. The effects of improved electricity access on development outcomes appear less than observed internationally. Fig. 3. Timor-Leste's HDI component indices 2000–2021.
