# Estonian stacked energy storage battery

## Overview

---

Estonian energy company Eesti Energia opened the Baltic's largest battery storage at the Auvere industrial complex. This state-of-the-art storage system is already enhancing the stability of the regional electricity grid and mitigating high peak electricity prices for consumers.

Estonian energy company Eesti Energia opened the Baltic's largest battery storage at the Auvere industrial complex. This state-of-the-art storage system is already enhancing the stability of the regional electricity grid and mitigating high peak electricity prices for consumers.

Baltic Storage Platform JV—a French-based independent solar power company, Corsica Sole, and Estonian major renewable energy developer Evecon, alongside Mirova, a group of the Natixis Investment Managers that specializes in sustainable investments—managed to finance the two battery energy storage.

The Baltic Storage Platform joint venture – bringing together French independent solar power producer Corsica Sole, Estonia's leading renewable energy developer Evecon, and Mirova, an affiliate of Natixis Investment Managers dedicated to sustainable investment – has successfully secured €85.6.

NIB has signed a EUR 27.7 million 10-year loan agreement with Baltic Storage Platform OÜ to finance the construction of two battery energy storage projects, Hertz 1 and Hertz 2, in Estonia. The investment supports the region's transition to a more resilient and renewable-based energy system. The.

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru.

Baltic Storage Platform secures a record €85.6mn (\$90.6mn) to develop two battery energy storage sites in Estonia, marking the first such financing in the Baltics based solely on storage revenue streams. Unlimited access • Archives

included • Professional invoice \*Prices are excluding VAT, which.

A unique 400 MWh battery complex is taking shape in Estonia, marking one of Europe's largest energy storage projects. When it comes to energy, compact Estonia thinks big. The country, aiming for a full-fledged green transition, is building unique infrastructure to bring this moment closer.

## Estonian stacked energy storage battery

---
