Fiji solar and Energy Storage Plant

Overview

Why do we need solar power in Fiji?

By harnessing the abundant Fijian sunshine, we aim to power our pristine Fijian paradise with clean renewable solar energy for generations to come, thereby reducing Fiji's reliance on expensive and polluting diesel generation for electricity.

What are the different types of energy solutions in Fiji?

Delivering secure, cost-effective hybrid and utility grade power solutions, for today and the future. Our specialities in Fiji include Solar Energy, Renewable Energy, Hybrid Energy, Distributed Generation, Energy Storage, Off-Grid Energy, Remote Communities, HV, Substations, Grid Connections, Battery Energy Storage Systems (BESS), and Microgrid.

Who is island solar Fiji?

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.

Where is Fiji's New solar plant located?

This new solar plant is situated at the Mua Research Centre in the north of Taveuni, an international centre for palm and coconut research owned by the Fijian Government and is poised to bolster the island's existing generation capacity.

Why do organisations in Fiji switch to solar energy?

Organisations in Fiji choose to go solar for their energy for a variety of reasons, including financial, environmental, and strategic benefits. One of the primary reasons organisations in Fiji switch to solar energy is to save money on their energy bills.

Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, Sungrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.
