

PDEOZE PowerContainer

Finnish heavy industry energy storage cabinet brand

Overview

That's why we created Enico | Jupiter - a unique, next-generation energy storage system that scales with your needs and drives your business towards smarter energy management. Why do we design and manufacture batteries in Finland?

Our goal is to accelerate the shift by decarbonizing electricity, enabling electric transportation, and reducing heating emissions for a cleaner future. We design and manufacture our batteries in Finland, a country renowned for its engineering excellence and commitment to sustainability.

Is energy storage a future-proof solution?

Energy storage is no longer an option but a necessity for sustainable growth and competitiveness. Enico Oy launches a next-generation energy storage solution: Enico | Jupiter. This fully modular product family, based on European technologies, brings cost-efficiency to energy storage projects - and delivers future-proof solutions today.

Who is Heliostorage?

Heliostorage's journey began with a group of creative engineers in a garage, determined to make heating better and more efficient. We were driven by the age old issue caused by seasonality; In winter, when it's cold and sunny days are rare, buildings need heating. In summer, when there's plenty of sun, buildings need cooling.
