# **Georgia Energy Storage Power Generation Project**

## Overview

---

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties. The BESS projects were authorized by the Georgia Public Service Commission (PSC) through.

In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS. Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update) to the Georgia Public Service Commission, which includes.

ATLANTA, Sept. 23, 2025 /PRNewswire/ -- Georgia Power has announced the open comment period for its 2025 Request for Proposals (RFP) for Energy Storage System (ESS) resources. Approved by the Georgia Public Service Commission (PSC) as a part of the company's 2022 Integrated Resource Plan (IRP).

Georgia Power has proposed its first major data center contract of the year to the state Public Service Commission. While Georgian's utility bills have already risen, people disagree on whether the surge in data centers will further burden ratepayers. This story was updated to include a statement.

## Georgia Energy Storage Power Generation Project

---

Georgia Power has initiated the construction of a 200MW (megawatt) battery energy storage system (BESS) in Twiggs County, southeast of Macon in the US state. The ...

Georgia Power begins construction on 200 MW battery energy storage system in Twiggs County to boost grid reliability and support renewable energy integration.

Georgia Power has unveiled ambitious plans to invest significantly in new generation capacity and battery energy storage systems (BESS) across the state--particularly in Floyd and Bartow counties--to ...

Georgia Power begins construction on 200 MW battery energy storage system in Twiggs County to boost grid reliability and support renewable energy integration.

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in ...

Although the state is just starting to explore the possibilities of battery energy storage, Georgia has been a hotbed for renewable energy development since the passage of ...

The company's offerings enable decision makers in power supply, procurement, and investment markets to plan, operate, monetize, and manage risk for renewable energy ...

In addition to the 500 MW BESS projects from the 2023 IRP Update, Georgia Power is nearing completion on the 65 MW Mossy Branch Battery Facility located in Talbot County, Georgia.

As Georgia Power begins to submit contract proposals for data centers, some groups are concerned by the lack of transparency and potential cost to ratepayers.

Georgia Power has unveiled the sites for its 500 MW of new battery energy storage systems (BESS), as authorized by the Georgia Public Service Commission (PSC) ...

Although the state is just starting to explore the possibilities of battery energy storage, Georgia has been a hotbed for renewable energy development since the passage of ...

Georgia Power has unveiled ambitious plans to invest significantly in new generation capacity and battery energy storage systems (BESS) across the state--particularly ...

Explore Georgia Power's battery energy storage construction, enhancing renewable energy supply and reliability across Georgia.

Georgia Power has unveiled the sites for its 500 MW of new battery energy storage systems (BESS), as authorized by the Georgia Public Service Commission (PSC) earlier this year.

In addition to the 500 MW BESS projects from the 2023 IRP Update, Georgia Power is nearing completion on the 65 MW Mossy Branch Battery Facility located in Talbot ...
