Good solar module prices in Montenegro

Overview

How much does a solar project cost in Montenegro?

The maximum price to compete for is EUR 65 per MWh and the contracts will last 12 years. The Government of Montenegro adopted the decisions and directives necessary for issuing a public call to auction for solar power projects of at least 400 kW. The lowest bids will win, and the maximum price is EUR 65 per MWh.

How much does a solar auction cost in Montenegro?

Montenegro has set a ceiling price of €65 (\$76.11)/MWh for its first solar auction, which will offer 12-year contracts for difference (CfD) for up to 250 MW of capacity. The auction is scheduled to take place later this year. Image: Bojana Cupic, Vlada Crne Gore.

Where are solar power plants located in Montenegro?

Montenegro is rich in solar radiation, particularly in the southern part, especially around the cities of Bar and Ulcinj, and in the area around the capital city of Podgorica. Solar power plants are located in these areas due to the high solar radiation.
