

PDEOZE PowerContainer

Household dedicated inverter wholesaler

Overview

Who is inverter warehouse?

Inverter Warehouse (Pty) Ltd is a company based in Meadowdale Johannesburg South Africa. We have provided back up power and solar solutions to homes and small to medium businesses throughout Southern Africa since 2007. Our mission is to provide good quality affordable solar products to the South African and regional markets.

What types of solar inverters are available?

Models include Solaron250 kW Solaron 333 kW Residential, Industrial and Commercial Inverters with built-in disconnects from Solectria include PVI3000 PVI4000 PVI5000 PVI5300 Residential models and PVI13KW PVI15KW commercial and industrial models.

How does a stand-alone inverter work?

Stand-alone Inverters convert DC power stored in batteries to AC power that can be used as needed. Selecting an inverter for your power system based on the maximum load you will be powering, the maximum surge required, output voltage required, input battery voltage and optional features needed.

How do Intertie inverters work?

Intertie Inverters change DC power into AC power to be fed into the utility grid. A power system with this type of inverter uses the utility company as a storage battery. When the sun is shining, your electricity comes from the PV array, via the inverter.

What are examples of Intertie inverters?

The Trace SWPV, UT and microsine, AEI GC and Omnion 2400 inverters are examples of an intertie inverter. Using a multifunction inverter allows you to sell excess power to the utility, and also maintain a battery bank for standby power in the event of a utility power failure.

What is a grid-tie microinverter?

This grid-tie microinverter has the unique advantage of using one inverter per solar panel so you can place modules on multiple roof faces, great for systems with shade problems.
