How many solar panel factories are there in Vietnam

Overview

Today, Vietnam hosts over 47 solar panel companies, including major international players like Longi Solar, JinkoSolar, and Canadian Solar, alongside emerging domestic manufacturers such as Bamboo Capital and Sao Mai Group.

Today, Vietnam hosts over 47 solar panel companies, including major international players like Longi Solar, JinkoSolar, and Canadian Solar, alongside emerging domestic manufacturers such as Bamboo Capital and Sao Mai Group.

Many solar panel factories have been investing and developing in Vietnam in order to meet both the potential and the increasing demand for solar power. This article would like to send readers top 8 solar panel factories under construction, as well as the ones having operated in the Vietnamese.

In fact, a testament to the rise of the solar industry in Vietnam is the fact that there are currently a number of solar manufacturers in the country. Here are some of the most well-known ones that you can check out. >> [Allesun New Energy | Reviews, product prices, contact, CEO Incorporated in May.](#)

Indefol Solar is a specialized solar development company focused on renewable energy solutions, offering integrated services and products that enhance efficiency and sustainability through advanced energy technologies. As a manufacturer and service provider in the renewable energy sector, Indefol.

Discover comprehensive insights into the statistics, market trends, and growth potential surrounding the solar panel manufacturing industry in Vietnam
Sunshine Duration: On average, Vietnam receives 1,700 to 2,500 hours of sunshine per year. Region-wise average sunshine hours in Vietnam are as.

Vietnam, a rapidly developing country in Southeast Asia, is experiencing a significant increase in solar energy adoption. The government has introduced favorable policies, incentives, and targets to promote clean energy sources, particularly solar power. As a result, numerous solar panel.

Solar energy is booming around the globe and Vietnam, in particular, has seen a significant rise in the number of solar panel manufacturers operating within its borders. The increased emphasis on renewable energy in recent years has transformed Vietnam into a hub for solar panel manufacturing. Here. Why is solar energy booming in Vietnam?

Solar energy is booming around the globe and Vietnam, in particular, has seen a significant rise in the number of solar panel manufacturers operating within its borders. The increased emphasis on renewable energy in recent years has transformed Vietnam into a hub for solar panel manufacturing.

Why is the Vietnam solar panel market growing?

The Vietnam solar panel market is witnessing significant growth, driven by increasing energy demands, government support for renewable initiatives, and a shift towards sustainable energy sources.

How big is Vietnam's solar industry?

Export revenues from solar panels and component sales exceeded \$8.4 billion in 2024, making solar products Vietnam's eighth-largest export category. The sector employs over 185,000 workers directly, with an additional 340,000 jobs in supporting industries, creating a comprehensive ecosystem that supports sustained growth.

What is Vietnam's solar manufacturing ecosystem?

Vietnam's solar manufacturing ecosystem encompasses everything from raw material processing to complete solar panel system assembly, supported by both international corporations and innovative domestic companies. The Vietnamese solar landscape features a diverse mix of established international brands and rapidly growing domestic manufacturers.

Where is the largest solar panel factory in Vietnam?

Trina Solar (Bac Giang) In 2017, the solar panel factory of Trina Solar (Vietnam) Science & Technology Co., Ltd. was officially inaugurated and put into operation in Bac Giang. The total designed output of the plant reached 1GW, which is the largest solar panel factory in Vietnam today.

What is the demand for solar panels in Vietnam?

Growing awareness around sustainability and energy independence among

consumers is likely to bolster demand for solar panels moving forward. The Vietnam solar panel market can be segmented into several categories based on types of panels used and end-use applications: Cristal Silicon: The most predominant type due to its high efficiency.
