Hungarian BMS lithium battery

Overview

Which companies make lithium-ion batteries in Hungary?

Today, Samsung SDI and SKI Innovation operate several giant factories in Hungary, whose total production will potentially grow to 47.3 GWh by 2025 and up to 87.3 GWh by 2030. GS Yuasa also produces automotive lithium-ion starter batteries, while Inzi Control also manufactures battery modules.

Who manufactures Car batteries in Hungary?

GS Yuasa also produces automotive lithium-ion starter batteries, while Inzi Control also manufactures battery modules. Many of the significant suppliers of the battery industry in Hungary are located directly near the main car manufacturing plants.

What are the top 10 battery manufacturers in Hungary in 2025?

This article introduces the top 10 battery manufacturers in Hungary in 2025 such as; CATL, Sunwoda, BYD, EVE Energy, CALB, SK On, Samsung, SDI, GS Yuasa, Inzi Controls, Huayou Cobalt. Last Updated on June 12, 2025.

Where is the battery industry located in Hungary?

Many of the significant suppliers of the battery industry in Hungary are located directly near the main car manufacturing plants. Since 2016, a total of HUF 1,903.8 billion (EUR 5.29 billion) and approximately 13,757 jobs have been created as a result of working capital investments in the battery industry.

Why is Hungary a good place to buy a battery?

Hungary is ideally located on the European battery map, thanks to its central geographical location, investments in cell and battery production facilities, the presence of large car manufacturers and its extensive supplier industry.

Can Hungary extract lithium from the Pannonian Basin?

Hungary has the opportunity to exploit the geothermal brines of the Pannonian Basin for lithium extraction and to develop lithium production processes with low carbon dioxide emissions.
