MET Group, a Switzerland-based European energy company, has inaugurated Hungary's largest standalone battery energy storage system (BESS) at the Dunamenti Power Station in Százhalombatta. The facility features a nominal power output of 40 MW and a storage capacity of 80 MWh, enabling a 2-hour.

MET Group put into operation a battery electricity storage plant with a total nominal power output of 40 MW and a storage capacity of 80 MWh (2-hour cycle) /BUDAPEST, HUNGARY, June 19, 2025, 10:00 CET, MET Group/ Hungary's largest operating standalone battery energy storage system (BESS) has been.

Hungarian energy storage power station

With this latest BESS plant, which went into operation, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in ...

MET Group has inaugurated Hungary's largest standalone battery energy storage system (BESS) at the Dunamenti Power Station in Százhalombatta, further advancing efforts to enhance grid flexibility and ...

MET Group has launched Hungary's largest battery energy storage system at the Dunamenti Power Station, a 40 MW / 80 MWh plant supporting national energy transition goals.

MET Group has inaugurated Hungary's largest standalone battery energy storage system (BESS) at the Dunamenti Power Station in Százhalombatta, further advancing efforts ...

MET Group has launched Hungary's largest battery energy storage system at the Dunamenti Power Station, a 40 MW / 80 MWh plant supporting national energy transition goals.

Hungary joins its neighbours in scaling up grid-scale battery storage, installing the country's largest BESS to date. The new facility supports a growing push to green Hungary's power grid.

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in ...

Hungary's largest operating standalone battery energy storage system (BESS) has been

inaugurated today. It is the latest example in a series of MET investments in BESS ...

Hungary joins its neighbours in scaling up grid-scale battery storage, installing the country's largest BESS to date. The new facility supports a growing push to green Hungary's ...

Situated at the Dunamenti Power Station in Százhalombatta, the new battery energy storage system builds on MET Group's earlier 4 MW / 8 MWh demonstrator plant ...

With this latest BESS plant, which went into operation, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today. It is the latest example in a series of MET investments in BESS ...

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in ...

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Százhalombatta, located close

Swiss energy company MET Group has inaugurated the largest stand-alone electricity storage system in Hungary's history. The new installation, located at the Dunamenti ...

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal power output of 40 MW ...

Situated at the Dunamenti Power Station in Százhalombatta, the new battery energy storage system builds on MET Group's earlier 4 MW / 8 MWh demonstrator plant installed in 2022 using Tesla Megapack 2 ...
