# Iran energy storage project subsidies

## Overview

---

According to earlier critics, even if half of \$20 billion is passed as part of the compensation to the poorer 50% of the , it will amount to \$25 per eligible person per month; "no way near enough to make up for such inflation rates". Critics say that if the government goes for the top of this range could rise up to 40% through the economy. The , however, has predicted a more modera.

How much do Iran's energy subsidies cost?

In 2010, Iran's energy subsidies were estimated at around \$70 billion (Salehi-Isfahani et al 2015), a significant burden that contributed to fiscal deficits and hindered investment in critical infrastructure.

What is Iran's targeted subsidy plan?

The Iranian targeted subsidy plan (Persian: *یارانه‌ها هدفمندسازی طرح*), also known as the subsidy reform plan, was passed by the Iranian Parliament in 2010. The government described the subsidy plan as the "biggest surgery" to the nation's economy in half a century and "one of the most important undertakings in Iran's recent economic history".

How does Iran's subsidized fuel smuggled abroad affect its economy?

For example, up to 15 percent of Iran's subsidized fuel is smuggled abroad (Farhikhtegandaily 2025), resulting in lost domestic revenue and reinforcing inefficiencies. The economic pressure that sanctions place on Iran make immediate internal reform of Iran's energy sector all the more relevant.

Will Iran retender solar power?

Iran's Renewable Energy and Energy Efficiency Organisation (SATBA) has announced plans to retender 2.2 GW of solar power capacity during the current Iranian fiscal year (March 21st-March 20th), after disappointing take-up of the original offering.

Can Iran save \$100 billion on oil subsidies?

Iran wants to save up to \$100 billion on subsidies within three to four years. In

2011, the Iranian parliament approved a \$508 billion budget based on \$80/barrel oil price. This bill also factors in \$54 billion from price hikes and subsidy cuts. Iran's oil and gas projected revenues by the International Monetary Fund.

Will Iran's subsidy reforms save 20 percent of its budget?

In March 2010, the Iranian Parliament approved a \$347 billion budget, in which the allocation from subsidies and the oil price were set at \$20 billion and \$65 per barrel, respectively. According to the Vice President for Parliamentary Affairs, Iran's subsidy reforms would save 20 percent of the country's budget. [citation needed]
