Irish PV p-type module prices

Overview

How much does a 960 MW PV capacity cost in Ireland?

Ireland allocated around 960 MW of PV capacity in the fourth Renewable Electricity Support Scheme auction (RESS 4) it held on Aug 28. The procurement exercise concluded with an auction final average price of €0.09685/kWh, which is 4% less than in the previous round.

What is the PV module price index?

The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.

How much does solar energy cost in Ireland?

The final average prices for the PV and wind technology were €0.10476/kWh and €0.09047/kWh, respectively. Compared to other auctions held this year in Germany, Croatia, the UK, and Italy, Ireland’s RESS 4 auction prices were very high.

How much does a solar module cost?

The average price for these brands (€0.106/Wp) marks a jump from March’s more affordable leaders, TW Solar and Astronergy (€0.087/Wp). P-type: Prices inched up to €0.078/Wp, a 1% rise, reflecting stable but cautious demand for increasingly obsolete modules. Bifacial modules:.

Do PV modules lose resale value?

For historical secondary market PV module pricing from 2020 through 2023, download the 2023 PV Module Price Index from EnergyBin’s Resources portal. Overall, the price index shows that new PV modules don’t tend to lose resale value in the U.S. secondary market unless their technology is older, such as Legacy POLY modules.

How much does non Xinjiang polysilicon cost?

Currently, non-Xinjiang polysilicon with traceability data generally carries a quoted premium of RMB 3–5/kg. Polysilicon prices in dollar terms are prices for polysilicon with non-China origins in dollar terms, not translated from RMB prices.

PRICE INDEX , October 2025 Photovoltaic Price Index Every month we publish a current price index on the development of wholesale prices of solar modules. In doing so, we differentiate ...

Jan 2, 2025 · P-Type modules in September increased to $0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P ...

May 6, 2025 · April saw nuanced but key price shifts in the European solar market, with module prices rising due to supply constraints, while inverter prices continued to decline. The PV ...

Oct 28, 2024 · Following Ireland's most recent renewables auction finalized in late September, the average final price for PV was EUR0.10476 ($0.12)/kWh, which just a 4% decrease compared to 2023's auction

Jun 23, 2025 · In May 2025, shifting market dynamics saw solar module prices continue to rise, with supply constraints and firm demand putting upward pressure on pricing. In contrast, ...

Oct 7, 2025 · Updated photovoltaic module prices 2025: in August, high-efficiency solar panels fell to an average of EUR0.12/Wp in Europe.

Feb 6, 2025 · Lower performance p-type monofacial prices rose by 8%, which "suggests that the downward pressure on standard module prices may be easing as stock levels for lower-cost ...

Oct 7, 2025 · Updated photovoltaic module prices 2025: in August, high-efficiency solar panels fell to an average of EUR0.12/Wp in Europe.

May 6, 2025 · April saw nuanced but key price shifts in the European solar market, with

module prices rising due to supply constraints, while inverter prices continued to decline. The PV Purchasing Managers' Index (PMI) ...

Jun 23, 2025 · In May 2025, shifting market dynamics saw solar module prices continue to rise, with supply constraints and firm demand putting upward pressure on pricing. In contrast, inverters trended lower, ...

Dec 19, 2023 · Prices of p-type PERC solar modules in Europe are currently approaching the EUR0.10/W threshold, according to Leen van Bellen, business development manager Europe for ...

Jan 2, 2025 · P-Type modules in September increased to $0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.

Feb 6, 2025 · Lower performance p-type monofacial prices rose by 8%, which "suggests that the downward pressure on standard module prices may be easing as stock levels for lower-cost alternatives gradually

Oct 28, 2024 · Following Ireland's most recent renewables auction finalized in late September, the average final price for PV was EUR0.10476 ($0.12)/kWh, which just a 4% decrease compared to ...

6 days ago · InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

March 13, 20251. PV Module Prices Rebound After a prolonged decline, PV module prices in Europe have shown a noticeable rebound. Data indicates that N-type single-sided module ...

Dec 19, 2023 · Prices of p-type PERC solar modules in Europe are currently approaching the EUR0.10/W threshold, according to Leen van Bellen, business development manager Europe for Search4Solar, a Netherlands
