Island purchases new 48v lithium battery pack

Overview

What is a Trojan lithium onepack battery?

The Trojan Lithium OnePack battery offers advanced features like extended run times, fast charging, and increased torque for low-speed electric vehicles (LSEVs). With a lifespan exceeding 10 years and an 8-year warranty, the Lithium OnePack ensures durability and reliability for LSEV owners.

Which LSEV batteries are available?

Trojan Battery provides a comprehensive range of LSEV batteries, including lithium-ion options in various voltages and traditional flooded lead-acid models. For years, Trojan Battery Company has led the charge in bringing state-of-the-art battery technology to power various applications, ranging from golf carts to marine equipment.

What is a 48 volt battery?

The 48-volt battery means no component upgrades required Trojan Battery Company draws on 100 years of innovation to provide a range of batteries to fit your golf cart and low speed electric vehicle applications.

How long can a Trojan lithium LSEV go on a single charge?

One of the most impressive qualities of the Trojan Lithium OnePack is its outstanding performance. For example, with the Trojan Lithium OnePack, you can travel up to 60 miles on a single charge, allowing LSEV owners to be in their vehicle longer without the fear of running out of juice.

How long do LSEV batteries last?

With a lifespan exceeding 10 years and an 8-year warranty, the Lithium OnePack ensures durability and reliability for LSEV owners. Trojan Battery provides a comprehensive range of LSEV batteries, including lithium-ion options in various voltages and traditional flooded lead-acid models.

Do LSEV batteries need to be watered?

The Trojan Lithium OnePack batteries require no watering, offering hassle-free operation and peace of mind to LSEV owners. This maintenance-free design not only saves time but also ensures optimal performance throughout the battery's lifespan.
