

PDEOZE PowerContainer

Large silent power generation container

Large silent power generation container

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, ...

our eco° GEN-C series features all-in-one packaged power generation solution, engineered for mobility, easy deployment and scalability. each power container is engineered to meet specific ...

Designed with superior noise reduction, advanced air intake systems, and a heavy-duty chassis, these generators provide consistent performance across multiple applications, ensuring stable, ...

The silent container is made by high performance and anti-ageing, flame retarding, sound insulation and damping materials, with unique and elaborate design for air intake, outlet and noise reduction device.

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers ...

Our Tier 4 containerized generators are high-powered --500 kW to 1250 kW-- units packaged in 30-foot or 48-foot ISO containers. The larger footprint of these units allows for more versatility ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, ...

The silent container is made by high performance and anti-ageing, flame retarding, sound insulation and damping materials, with unique and elaborate design for air intake, outlet and ...

Discover our innovative silent containerized generator sets featuring advanced noise reduction technology, intelligent monitoring systems, and comprehensive environmental protection. ...

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise ...

The WDG825CC container generator set is our high-end power generation solution built for industrial and large commercial applications. You can use the generator in silent mode or configure it in an open-frame design, ...

Our Tier 4 containerized generators are high-powered --500 kW to 1250 kW-- units packaged in 30-foot or 48-foot ISO containers. The larger footprint of these units allows for more versatility from a manufacturing ...

Each manufactured containerised generator is acoustically lined to achieve the external sound levels required at your site. We build each container from scratch with special louvres for free ...

The WDG825CC container generator set is our high-end power generation solution built for industrial and large commercial applications. You can use the generator in silent mode or ...
