Why Would a Beer Company Build Europe's Largest Battery Farm?

When Budweiser announced its 120MWh battery storage facility near Skopje in March 2025, eyebrows shot up across both brewing and energy sectors. The \$85 million project - currently Europe's largest privately-owned battery installation -

Macedonia Energy Storage Battery Project

The \$85 million project - currently Europe's largest privately-owned battery installation - represents a staggering 40% of North Macedonia's total grid flexibility capacity.

Turkish renewables company Fortis Energy has contracted Pomega Energy Storage Technologies to install a 62-MW/104-MWh battery at the site of a 80-MWp solar park ...

Search all the ongoing (work-in-progress) cold storage plant projects, bids, RFPs, ICBs, tenders, government contracts, and awards in North Macedonia with our comprehensive online database.

In a recent landmark auction, the North Macedonian government received 44 bids for battery storage projects, totaling an impressive 4.2 GW of capacity. This ambitious move is ...

This project, implemented in North Macedonia, is not only a technical achievement but also a milestone redefining the region's energy future. Our project integrates a 60 MW battery energy ...

Why This Project Matters to Energy Enthusiasts & Locals A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's ...

Public Power Corporation announced on Tuesday the start of the construction of a Battery Energy Storage System (BESS) at Amyntaio, northwestern Greece, alongside the ...

Turkish renewables company Fortis Energy has contracted Pomega Energy Storage Technologies to install a 62-MW/104-MWh battery at the site of a 80-MWp solar park it operates in North Macedonia.

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski.

...

The \$85 million project - currently Europe's largest privately-owned battery installation - represents a staggering 40% of North Macedonia's total grid flexibility capacity.

In North Macedonia, the focus on household energy storage using lithium batteries is growing due to the country's goal of achieving 42% renewable energy by 2030.

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski. In addition, Hydrogen ...

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in ...
