# **Montenegro Power Grid Energy Storage Project**

## Overview

---

State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage installations, each designed to deliver 30 MW of power and store up to 120 MWh of energy.

State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage installations, each designed to deliver 30 MW of power and store up to 120 MWh of energy.

Imagine a small nation nestled in the Balkans, striving to balance its growing energy demands with a commitment to sustainability, all while navigating the complexities of a transitioning power sector. Montenegro, with its rugged landscapes and ambitious goals, faces the challenge of modernizing an.

Montenegro has taken a decisive step toward modernizing its power system with a €48 million investment in large-scale battery energy storage systems (BESS). State-owned utility Elektroprivreda Crne Gore (EPCG) has launched an international tender for two commercial and industrial energy storage.

Montenegro's state-owned electric utility, Elektroprivreda Crne Gore (EPCG), announced plans to launch a call for tenders to procure 300 MWh of battery energy storage systems (BESS), as part of its ongoing efforts to enhance energy infrastructure. The tendering process is scheduled to begin in.

## Montenegro Power Grid Energy Storage Project

---

Montenegro's state-owned electric utility, Elektroprivreda Crne Gore (EPCG), announced plans to launch a call for tenders to procure 300 MWh of battery energy storage ...

The utility is procuring two grid-scale battery storage systems to the tune of EUR 48 million (\$55.9 million). EPCG, Montenegro's largest electricity provider, is investing in two four ...

Elektroprivreda Crne Gore (EPCG) is seeking a partner for the design, supply, installation, testing, and commissioning of two battery energy storage systems (BESS), each ...

Montenegro invests EUR48M in 240 MWh battery energy storage systems to enhance grid stability and accelerate its renewable energy transition.

As the largest producer of electricity in Montenegro and a key developer of renewable energy projects, EPCG aims to improve the flexibility of the power system by ...

Montenegro's state-owned power utility, Elektroprivreda Crne Gore (EPCG), is set to issue a tender in January for the procurement of battery energy storage systems (BESS) ...

EPCG, the Electric Power Company of Montenegro, will launch a public tender for the procurement of 300MWh of battery energy storage system (BESS) technology before the ...

EPCG, the Electric Power Company of Montenegro, will launch a public tender for the

procurement of 300MWh of battery energy storage system (BESS) technology before the end of the year, said ...

EPCG's latest project aims to address these gaps, positioning battery storage as a cornerstone of grid modernization and a critical tool for achieving national sustainability targets.

Montenegro's state-owned power utility, Elektroprivreda Crne Gore (EPCG), is set to issue a tender in January for the procurement of battery energy storage systems (BESS) ...

EPCG, Montenegro's largest electricity provider, is investing in two four-hour BESS to strengthen grid resilience and balance supply and demand. Each system will have a power ...

Elektroprivreda Crne Gore (EPCG) is seeking a partner for the design, supply, installation, testing, and commissioning of two battery energy storage systems (BESS), each ...

The opening of this tender is a pivotal moment for Montenegro as it seeks to modernize its energy infrastructure and reduce its carbon footprint. By investing in battery energy storage, EPCG is positioning itself ...
