Mozambique configures energy storage battery companies

Overview

Mozambican regulator Autoridade Reguladora de Energia (Arene) has issued a request for proposals (RfP) for independent power producers (IPPs) to develop and install solar PV and battery energy storage systems (BESS) through the country's Global Energy Transfer Feed-in Tariff (Get FiT) programme. Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Will Cuamba solar deliver clean power to the Mozambican grid?

Mike Scholey, Globeleq's CEO remarked: "We are extremely excited to now have Cuamba Solar officially delivering clean power to the Mozambican grid via EDM and supporting both the local economy and the Government's efforts to build more renewable power.

Why should Mozambique be a regional power supplier?

First, to ensure that Mozambique has reliable and cost-effective power generation capable of meeting its 2030 electrification goals. Second, to establish Mozambique as a regional power supplier of choice. South Africa has a critical shortage of electricity, and Zambia and Zimbabwe also require power.

Should Mozambique export electricity?

One of the big challenges of Mozambique is its size and shape, which make the transportation of electrons across the country quite expensive. Exporting

electricity would bring foreign currency that can support investments in domestic transmission and distribution infrastructure.

What is Mozambique's investment climate?

Mozambique's investment climate needs to remain predictable, not just in the electricity sector, but also across industries such as tourism, logistics and agriculture that will drive demand for electricity as the economy grows.

Mozambique's Ministry of Mineral Resources and Energy has kicked off a tender for the development of decentralized solar and battery storage systems in the provinces of Nampula, ...

CPCS is combining solar power systems and battery storage in Mozambique to help ensure universal electricity access by 2030.

Commercial operations at the 19MWp Cuamba Solar PV and 7MWh battery energy storage plant in Mozambique are officially underway. The plant supplies clean energy to Electricidade de Moçambique (EDM), ...

The power producer has finalised a binding agreement with GridX Africa Development under which Ncondezi has the right, but not the obligation, to fund a pipeline of ...

"The Cuamba solar and storage plant will provide greater energy security and stability in this region of Mozambique and marks a turning point for the Cuamba district.

Mozambican regulator Autoridade Reguladora de Energia (Arene) has issued a request for proposals (RfP) for independent power producers (IPPs) to develop and install ...

Commercial operations at the 19MWp Cuamba Solar PV and 7MWh battery energy storage plant in Mozambique are officially underway. The plant supplies clean energy to ...

Let's cut to the chase--Mozambique's latest joint energy storage project bidding isn't just another infrastructure tender. With global energy storage now a \$33 billion industry ...

CPCS is combining solar power systems and battery storage in Mozambique to help ensure universal electricity access by 2030.

The power producer has finalised a binding agreement with GridX Africa Development under which Ncondezi has the right, but not the obligation, to fund a pipeline of solar and battery storage projects in the ...

The journal covers novel energy storage systems and applications, including the various methods of energy storage and their incorporation into and integration with both conventional and ...

Mozambican regulator Autoridade Reguladora de Energia (Arene) has issued a request for proposals (RfP) for independent power producers (IPPs) to develop and install solar PV and ...

"The Cuamba solar and storage plant will provide greater energy security and stability in this region of Mozambique and marks a turning point for the Cuamba district.

Samir Salé, country and business development director of Globeleq, talks to The Energy Year about fast-tracking renewables projects in Mozambique and the potential of solar ...

Samir Salé, country and business development director of Globeleq, talks to The Energy Year about fast-tracking renewables projects in Mozambique and the potential of solar generation and battery storage ...
