

## **PDEOZE PowerContainer**

# **Mozambique new energy solar energy storage equipment manufacturer**

## Overview

---

The first large scale of pv storage system in Mozambique, 19kw with 7kwh battery, the plant, which is the first utility-scale solar and energy storage plant in the country, is the result of a partnership between Globeleq, energy developer Source Energia, and Mozambique's national utility, Electricidade de Moçambique (EDM). Who is building a solar power plant in Mozambique?

The Spanish group TSK has won the contract to build the Cuamba solar power plant in the Niassa province of Mozambique.

What is Globeleq's first greenfield project in Mozambique?

The US\$36 million Cuamba Solar plant is also Globeleq's first greenfield project in Mozambique and the Group's first combined solar and storage plant in its operating portfolio.

Will Cuamba solar deliver clean power to the Mozambican grid?

Mike Scholey, Globeleq's CEO remarked: "We are extremely excited to now have Cuamba Solar officially delivering clean power to the Mozambican grid via EDM and supporting both the local economy and the Government's efforts to build more renewable power.

What is Cuamba solar power plant?

"The Cuamba Solar Power Plant project aims to increase energy availability in the country through both public and private investments, with growing contribution from renewable energy sources; and addresses a strategic objective outlined in the Government's Five-Year Programme.

Why should you invest in the Cuamba solar and storage plant?

"The Cuamba solar and storage plant will provide greater energy security and stability in this region of Mozambique and marks a turning point for the Cuamba district. Globeleq, Source Energia and EDM have all invested in this project – a public-private partnership that demonstrates the confidence of

international investors in Mozambique.
