Multi-function inverter charger manufacturer

Overview

What is a multi-function inverter/charger?

This is a multi-function inverter/charger, combining functions of inverter, battery charger to offer uninterruptible power support with portable size.

What is solar inverter charger?

Solar inverter charger is an all in one off grid inverter, which is designed with power inverter, ac charger and solar charge controller. This “all-in-one” solar hybrid system not only offers smart operating modes, but also switch between available resources such as solar, battery, and external AC power.

What is a Multiplus inverter/charger?

Our extremely resilient and versatile MultiPlus inverter/chargers feature one AC-input and two AC-outputs, ensuring critical loads are always powered, even if shore, grid, or generator power fails. With PowerAssist and PowerControl technology, they optimise the power available and prevent overload of a limited AC source.

What is a cosuper inverter charger?

Widely used in emergency backup power, solar power system, vehicles, boat and camping ect. COSUPER Inverter charger is a combination of an inverter, battery charger and transfer switch into one robust and compact system, this multi-faceted product supplies a stable power for marine, camper, vehicle, backup system and off grid solar system.

What is a QJ-B solar inverter?

QJ-B series is a 5500VA/5500W on ff Grid Solar Inverter, with 100A MPPT Solar Charger Built in, 450VDC PV Input 220VAC 48V. 6000W best MPPT Single Phase 48V Hybrid Solar Inverter, designed for efficient energy conversion and reliability in off-grid solar system.

What is a smart inverter/charger?

Smart, resilient inverter/chargers for off-grid, marine, mobile, backup, and energy storage—modular and configurable to fit any professional energy system.
