New independent energy storage power station project

Overview

What is the northern New York energy storage project?

"The completion of the Northern New York Energy Storage project marks an important step to reaching New York's energy storage and climate goals." The project, located in Chateaugay, about 40 miles northwest of Plattsburgh, is the Power Authority's first utility-scale battery project and the first one built by New York State.

Where is New York's first state-owned battery energy storage project located?

Governor Kathy Hochul today announced that New York's first state-owned utility-scale battery energy storage project is now operating in the North Country's Franklin County.

Where is a battery energy storage project located?

Governor Hochul announced the utility-scale battery energy storage project is now operating in the North Country's Franklin County.

Why is energy storage important in New York?

The energy storage system will supply the New York wholesale energy and ancillary service markets and will contribute to more economical and reliable electric power in New York. Due to the intermittent nature of wind generation, the excess energy needs to be captured when the wind is blowing so it can be dispersed when there is no generation.

Will New York City's largest battery storage facility replace a natural gas peaker?

New York City's largest battery storage facility will replace a natural gas peaker plant unit retiring in 2025.

New York City's largest battery storage facility will replace a natural gas peaker plant unit retiring in 2025.

The project is located in the east (north) of Tongxing Road, Caosan Innovation Park, Guzhen Town, Zhongshan, covering over 19 thousand square meters area. This grid scale independent energy ...

The project is located in the east (north) of Tongxing Road, Caosan Innovation Park, Guzhen Town, Zhongshan, covering over 19 thousand square meters area. This grid ...

As the largest independent energy storage facility in southern Xinjiang, this project is expected to provide significant momentum for regional energy transition and economic ...

New York City's largest battery storage facility will replace a natural gas peaker plant unit retiring in 2025.

On January 3, Huangyuan County and Jiangsu Xiyuan Energy (Group) Co., Ltd. held a signing ceremony for a 100MW/200MWh independent energy storage project, which attracted the first ...

Governor Kathy Hochul today announced that New York's first state-owned utility-scale battery energy storage project is now operating in the North Country's Franklin County.

On July 19, the first batch of 500MW/200MWh energy storage units of Huadian Kashi Million Energy Storage, the largest electrochemical independent energy storage plant in ...

Recently, the 100MW/50.43MWh independent hybrid frequency regulation energy storage power station project in Yicheng, Shanxi, which was jointly constructed by SMS ...

A large-scale battery energy storage independent power producer (IPP), Key Capture Energy was founded in 2016 to develop new projects that would serve the electric grid, with an initial focus in New York, New England and ...

A large-scale battery energy storage independent power producer (IPP), Key Capture Energy was founded in 2016 to develop new projects that would serve the electric grid, with an initial focus ...

The 500MW/2000MWh independent energy storage power station in Ulanqab City, Inner Mongolia Autonomous Region has officially started construction, helping to promote the

...

Governor Kathy Hochul today announced that New York's first state-owned utility-scale battery energy storage project is now operating in the North Country's Franklin County.

The 500MW/2000MWh independent energy storage power station in Ulanqab City, Inner Mongolia Autonomous Region has officially started construction, helping to promote the

...

On October 18, construction officially began on the 200 MW / 400 MWh Independent Shared Energy Storage Power Station Project in Xuwen County, Zhanjiang City, ...

On July 19, the first batch of 500MW/200MWh energy storage units of Huadian Kashi Million Energy Storage, the largest electrochemical independent energy storage plant in

...

Recently, the 100MW/50.43MWh independent hybrid frequency regulation energy storage power station project in Yicheng, Shanxi, which was jointly constructed by SMS

...
