Pack battery loading and unloading equipment

Overview

How can battery handling equipment help a forklift?

Keep scrolling to explore the Battery Handling Equipment that can boost safety, enhance efficiency, and improve throughput for your whole operation — reducing time your forklifts spend in the battery room so they can go to work in the aisles. For help outfitting your forklift battery room, call the Solus Group sales team at 314-696-0200.

How does a battery pack Stacker work?

The Stacker can get into the cargo bed of the transport vehicle for loading and unloading the Battery Pack. The stacker also doubles as a versatile tool for moving spare parts and accessories, making it a multi-functional solution for various material handling tasks. Easy to handle battery pack unloading and loading from the truck.

What are the benefits of BHS battery handling equipment?

The right battery handling equipment can greatly improve productivity while limiting the manual labor associated with common battery room tasks. The labor-saving benefits of BHS battery handling equipment boost efficiency, but they also create a safer, more ergonomic battery room.

Why should you use a battery transfer carrier?

From storage to change-outs to safety and spill response equipment, we're your one-stop shop for safer, more efficient battery handling. Achieve faster battery changes in side-extraction electric forklifts with Battery Transfer Carriages or Mobile Battery Extractors.

What is MTC overhead battery removal equipment?
