

## **PDEOZE PowerContainer**

# **Price of home three-phase solar panels**

## Overview

---

Solar panels generate “free” electricity, but installing a system still costs money. A typical American household needs a 10-kilowatt (kW) system to adequately power their home, which costs \$28,241 in 2025. That price effectively drops to \$19,873 after considering the full federal.
