Overview

How much does a power bank cost?

Iniu Power Bank Bal-B64 for \$80: Offering relatively low prices, Iniu is a power bank brand on the rise. This portable charger packs a 27,000-mAh capacity, can put out up to 140 watts, and charges three devices at once via two USB-C ports and a single USB-A port.

Which power bank should I buy?

If you're looking for a compact power bank with decent capacity, Anker's Nano Power Bank is my pick, but watch out because the company has several power banks with the same name. This model has a 10,000 mAh capacity, a 2.3-foot retractable cable, and the ability to charge devices at up to 45 watts.

Can a power bank charge a laptop?

Power banks that can charge a laptop are a category unto themselves. I recently put together a guide to those high-capacity portable chargers and Lion Energy's Eclipse Mag made the cut as the best option for traveling with your laptop — but it's also great for smaller devices.

Should I buy a power bank if I don't have an off-grid solar setup?

But even if you're not relying on an off-grid solar setup, good power banks will come in handy. The Nimble Champ is our top recommendation for most folks, but we have all sorts of alternatives here. Read our Best MagSafe Power Banks guide for magnetic wireless chargers, and our Best Portable Power Stations guide for more power.

Which MagSafe power bank should I buy?

If you have an iPhone, we recommend some alternatives in our Best MagSafe Power Banks guide. If you're looking for a compact power bank with decent capacity, Anker's Nano Power Bank is my pick, but watch out because the company has several power banks with the same name.

How many watts can an anker power bank charge?

This Anker power bank has a handy pop-up Apple Watch charger that can deliver 5 watts and supports Nightstand mode. It also has a built-in USB-C cable and a USB-C port, so you can deliver up to 30 watts to your phone or another small device.
