Batkon is an electronics and embedded software R&D team dedicated to BMS. Meet Ilker and Türker that work here. Batkon team develops application specific Battery Management Systems (BMS) hardware and embedded software. Our BMS products are used in micromobility such as Mini BEV, e-Forklift.

Identify and compare relevant B2B manufacturers, suppliers and retailers. Max. HDA Power is shaping the future of energy by integrating environmental sustainability with reliable energy supply through its battery solutions. Their Energy Storage Systems (ESS) are essential for ensuring dependable and.

Turkey has emerged as a significant player in the global battery manufacturing landscape, driven by its strategic location and burgeoning energy sector. The country's focus on advancing its technological capabilities has seen a rise in both the production and innovation of various types of.

Did you know Türkiye aims to generate 30% of its electricity from renewables by 2030?

That's like replacing 15 million traditional car engines with silent, clean electric motors! As solar and wind projects mushroom across Anatolia, large energy storage systems have become the unsung heroes.

Turkey's power storage sector has grown by 28% annually since 2020, driven by its strategic position bridging Europe and Asia. With solar capacity exceeding 10 GW and wind energy projects surging, Turkish power storage manufacturers are solving critical challenges like grid instability and.

Detailed info and reviews on 9 top Energy Storage companies and startups in Turkey in 2025. Get the latest updates on their products, jobs, funding, investors, founders and. Detailed info and reviews on 9 top Energy Storage companies and startups in Turkey in 2025. Get the latest updates on their. Where are batteries made in Turkey?

Another vital node in Turkey's battery manufacturing sector is Izmir. Known for its robust industrial base, Izmir hosts several facilities specializing in the production of lifepo4 batteries and solar battery manufacturers in Turkey.

What makes Turkey a great battery manufacturer?

The battery manufacturing industry in Turkey is marked by a blend of established giants and dynamic newcomers, each contributing uniquely to the country's reputation as a burgeoning hub in the global battery market.

What is Mutlu Battery's market share in Turkey?

Mutlu Battery is the #1 brand in Turkey with a 40% market share. Mutlu is one of Turkey's oldest and prominent industrial groups with a long history dating back to 1945.

Why is Turkey a key player in battery manufacturing?

Turkey has emerged as a significant player in the global battery manufacturing landscape, driven by its strategic location and burgeoning energy sector.

Who is Mutlu Battery?

Mutlu Battery is the #1 brand in Turkey with a 40% market share. Mutlu is one of Turkey's oldest and prominent industrial groups, founded in 1945, with significant contributions to the development of the Turkish Economy.

What makes Erdil a great battery company?

Specializing in CR2032, CR123A, and CR123A batteries, Erdil has carved out a niche in high-performance battery solutions for both consumer and industrial use. The company's history of innovation is complemented by a strong emphasis on customer service and product reliability.

As solar and wind projects mushroom across Anatolia, large energy storage systems have become the unsung heroes balancing grid stability. Let's explore the top players ...

EAS Battery stands out as a leading lithium ion battery manufacturer in Turkey, with its headquarters in Istanbul. The company was established in the late 1990s and has since expanded its product range to include ...

AC/DC Electronic Systems designs and manufactures high-quality Uninterruptable Power Supply, UPS Systems, Battery Chargers, Voltage Stabilizers, Transformers and SMPS Power ...

Discover all relevant Energy Storage Companies in Turkey, including HDA Power Turkey and Partner EGS

With solar capacity exceeding 10 GW and wind energy projects surging, Turkish power storage manufacturers are solving critical challenges like grid instability and renewable intermittency. ...

In this context, the study aims to analyse the spatial distribution of battery technologies across Türkiye, the services to benefit most from their use, and their effects on the transmission grid ...

Reap Battery aims to be a leader in the ESS (Energy Storage Systems) market in Turkey and position itself among the top five in Europe. The company focuses on high-quality production, ...

EAS Battery stands out as a leading lithium ion battery manufacturer in Turkey, with its headquarters in Istanbul. The company was established in the late 1990s and has since ...

Need reliable Turkish battery suppliers? Discover leading manufacturers of Li-ion, alkaline, and industrial batteries for power tools, electronics, and more. Click to connect with ...
