EDP, through EDP Renewables, a global leader in the development of renewable energy, has inaugurated the Albina photovoltaic power plant – an important step for the company. This investment contributes to EDP’s efforts to support the development of a cleaner, more secure and affordable energy.

Chinese solar panel manufacturer LONGi has signed a contract to supply panels for a new photovoltaic power plant in Romania, built by Solarpro, which will be completed by mid-year this year and will have an installed capacity of 174 MW, the company said. The photovoltaic park built for CWP Europe.

Polish renewables developer-operator R.Power SA said it has started construction of the 55-MWp Lazuri solar farm in north-western Romania. The project, located in the Lazuri commune of Satu Mare County, will be built by R.Power’s EPC arm NOMAD Electric, the company said. The solar farm will connect.

Romania s new solar panel power plant

Chinese solar panel manufacturer LONGi has signed a contract to supply panels for a new photovoltaic power plant in Romania, built by Solarpro, which will be completed by ...

With this new power plant, EDP reinforces its commitment to Romania, where it already operates several wind and solar projects with a total installed capacity of more than 570 MW. The company is one of the ...

The Lazuri solar project is supported by a 15-year contract-for-difference (CfD) awarded in Romania's most recent renewable energy auction. It marks an important milestone ...

Rezolv Energy and Monsson have obtained full approval from local authorities to begin constructing Dama Solar, a 1.04 GW photovoltaic facility in western Romania.

Poland-based R.Power began work on its Lazuri photovoltaic plant of 55 MW in peak capacity in Satu Mare county in northwestern Romania.

The solar farm will be built in Mihailesti, 25 kilometres southwest of Bucharest, and will cover an area of 93 hectares - approximately the size of 130 football fields. Construction is expected to ...
