# **Russian Energy Storage Cabinet Power Cooperation Project**

## Overview

---

How has Russia influenced Central Asian countries in the energy sector?

For Central Asian countries, cooperation with Russia in the energy sector has been facilitated by historical ties, a common energy infrastructure inherited from the USSR, and numerous economic and political integration projects initiated by Russia—above all, the Eurasian Economic Union (EAEU).

Will China and Russia expand investment and energy cooperation?

[Photo/Xinhua] MOSCOW, July 24 -- China and Russia have agreed to further expand investment and energy cooperation to promote bilateral ties.

How is Russia helping Central Asia overcome the electricity sector crisis?

Russia is helping the countries of Central Asia overcome the electricity sector crisis in multiple ways, including electricity exports, power plant operation and modernization, and, especially, the construction of new thermal, hydro, and nuclear generating capacities (Table 1).

Why is Russia using the Caspian Pipeline Consortium (CPC)?

Russia is also using its leverage over operations of the Caspian Pipeline Consortium (CPC), which provides for more than 80% of Kazakh oil exports, and providing an opportunity to replace sanctioned Russian oil supplies to Europe with transit from Kazakhstan via the Druzhba pipeline.

Is China-Russia cooperation a good idea?

Under the strategic guidance of the two heads of state, China-Russia investment and energy cooperation has maintained a sound momentum of development, bringing tangible benefits to the two countries and the two peoples, Ding said.

Why is Russia a 'here and now' partner?

Central Asian countries are receiving greater support for the future development of new, renewable energy than for addressing their current challenges. This is where Russia has found excellent opportunities for cooperation, coming in with cheap energy resources as a “here and now” partner.
