ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into the world's first.

With the Apostolic Letter "Fratello sole," issued motu proprio, Pope Francis provides for the construction of an agrivoltaic plant in the extraterritorial zone of Santa Maria in Galeria, where Vatican Radio maintains antennas for digital broadcasting. By Christopher Wells Highlighting the need "to.

Solar energy prices for solar panels in the Vatican

It asks the Church, and the world, to imagine a future where the power that lights the Vatican's basilicas comes not from fossil fuels, but from the sun that shines on its fields.

Pope Benedict XVI kicked off the Vatican's green initiatives in 2008 by installing solar panels on its audience hall. But it has been Francis, 87, who has lambasted human ...
