## Overview

---

First Solar, the US's largest solar panel maker, will open a 3.7 GW US factory to finish solar panels started overseas.

First Solar, the US's largest solar panel maker, will open a 3.7 GW US factory to finish solar panels started overseas.

First Solar (Nasdaq: FSLR), the US's largest solar panel maker, announced it will open a new 3.7-gigawatt (GW) factory in the US to finish production of its Series 6 modules started at its overseas factories. Production is expected to launch at the end of 2026 and ramp up through the first half of.

The company's share price jumped 15% following its Q3 earnings call, which included the announcement of a factory that is expected to produce over 8 million finished solar panels per year at full capacity. First Solar (Nasdaq: FSLR) announced in its Q3 2025 earnings report that it will open a new.

Production at the new facility will onshore the finishing of Series 6 modules initiated at the international factories. Image: First Solar. US thin-film module manufacturer First Solar has unveiled plans to build a new 3.7GW manufacturing plant in the US in 2026. Production at the new facility is.

Manufacturing Renaissance: US solar manufacturing capacity has grown 190% year-over-year in 2024, reaching over 51 GW annually—enough to meet nearly all domestic demand while creating over 33,000 manufacturing jobs across the country. Supply Chain Gaps Remain Critical: While module assembly is.

This marks the first solar panel factory to be built since IRA passage [ATLANTA, Oct. 18, 2023] – Qcells, an industry-leading clean energy solutions provider, today announced the successful completion of its Dalton, Georgia, factory expansion. Qcells added 2 gigawatts (GW) of solar capacity to.

This is a current grouping of solar manufacturers in the United States that produce solar panels and their associated materials for the traditional residential, commercial and utility-scale markets. This data is collected by

Solar Power World editors and will be continually updated as facilities.
