Solar panels and solar modules in Turkmenistan

Overview

High solar activity in Turkmenistan makes small-scale solar energy a cost-effective way to provide electricity to hard-to-reach areas. In the vast areas of the central Garagum desert, where power is often supplied by diesel generators, solar panels can be an economically viable alternative.

Solar panels and solar modules in Turkmenistan

We are the only official representative, importer, and installer of solar panels and equipment from Victron energy in Turkmenistan. Solar panels are products that store electricity generated from ...

Whether you require a rooftop solar plant, solar water heater, solar pump, solar light, or even a solar EV charging station, we have you covered. As a responsible solar energy company in ...
