Swiss operator s base station

Overview

Where can I find a map of a Swiss train station?

The 35 largest Swiss stations are equipped with particularly easy-to-understand and appealing three-dimensional station plans. In addition to the printed posters, they are also available as an interactive train station map on the web, on mobile and on digital steles in the train station.

Does Switzerland have a train station?

The commuter rail networks of Zurich, Basel, St. Gallen, Geneva, Schaffhausen and Ticino provide also cross-border transportation services into Austria, Germany, France and Italy, respectively. The Austrian Vorarlberg S-Bahn operates services with Swiss border stations as their terminus, with one service operating through Liechtenstein.

What is Basel SBB?

Basel SBB is the main station in Basel, the third-largest city in Switzerland after Zurich & Geneva. It's a major hub for Swiss domestic trains and you'll often find yourself changing trains here. The SBB simply refers to Swiss Federal Railways, to distinguish it from Basel's other mainline station, Basel Bad Bf.

How does the Swiss train map work?

Luckily, these individual players have long synchronized their schedules, allowing trains to run efficiently across the country. The official Swiss train map integrates the various train companies, including the Swiss Federal Railways (SBB), the Matterhorn Gotthard Bahn (MGB), and the Rhaetian Railway (RhB), among others.

Who operates standard gauge railway lines in Switzerland?

The main operators of the standard gauge railway lines are Swiss Federal Railways (SBB CFF FFS), BLS, and Südostbahn (SOB). Other standard gauge

operators are CJ, SZU, TPF and TransN. Swiss Federal Railways (German: SBB, French: CFF, Italian: FFS) is the largest railway company in Switzerland and handles most of national and international traffic.

Does Switzerland have a train network?
