WASHINGTON, July 31, 2024 — The Multilateral Investment Guarantee Agency of the World Bank Group (MIGA) has issued a guarantee to AMEA Power Ltd. of the Cayman Islands for its investments in Kairouan Solar Plant, SARL in Tunisia. The \$23.5 million guarantee covers the risks of transfer restriction.

Tunisia's power sector is well developed, and nearly the entire population enjoys access to the national electricity grid. Tunisia has a current power production capacity of 5,944 megawatts (MW) installed in 25 power plants, which produced 19,520 gigawatt hours in 2022. State power utility company.

This photo taken on May 8, 2024 shows the groundbreaking ceremony for the construction of a 100-megawatt photovoltaic power station in central Tunisia's Kairouan Province. Chinese companies on Wednesday broke ground on a 100-megawatt photovoltaic power station in central Tunisia's Kairouan.

The European Bank for Reconstruction and Development (EBRD) has recently approved financing for a 10-megawatt solar power plant in Romust, Tunisia. The loan, totaling 4.9 million euros, includes a 3.9 million euro loan from the EBRD and 1 million euros in concessional financing from Finland under.

A 100MW photovoltaic power station is set to be constructed in Tunisia. Wael Chouchane, the secretary of state to the Tunisian minister of industry, mines, and energy, together with Chinese companies broke grounds to mark the start of works. The project marks Tunisia's energy diversification.

## Tunisia Public New Energy Station
