Types of solar panels in Kosovo

Overview

Could solar power be used in Kosovo?

Different sources estimate different potential for solar and wind in Kosovo. These could be combined with Albania's existing hydropower to make a much more flexible electricity system, and in December 2019, the two countries agreed to set up a common electricity market.

What are the power plants in Kosovo?

The greatest part of generation capacities of Kosovo are the two power plants: Kosova A and Kosova B. The capacities of the two power plants are lower than the installation parameters level, because of the outdated system and lack of maintenance during the last decade of the 20th century.

Why should you choose energy solutions in Kosovo?

Clean energy solutions designed to enhance efficiency and sustainability for homes across Kosovo. Comprehensive energy systems tailored to meet the unique needs of businesses locally and regionally. Advanced energy infrastructure solutions optimized for industrial operations in Kosovo and surrounding areas.

What can teravolti do for Kosovo?

Advanced energy infrastructure solutions optimized for industrial operations in Kosovo and surrounding areas. Innovation in: North Macedonia, Albania, and partnerships across Europe, Asia, and North America. Explore our project portfolio and see how Teravolti is transforming Kosovo and the region with clean, sustainable solar energy solutions.

Are hybrid solar photovoltaic systems a good choice?

The hybrid solar photovoltaic system that they installed exceeds all our expectations, giving us solutions for sustainable energy and during interruptions AND that are not only friendly to the environment, but are also

effective in reducing the occasional KEDS bills. I am really impressed with the quality of their work.
