

PDEOZE PowerContainer

Uruguayan solar system manufacturer

Overview

What solar equipment is available in Uruguay?

Uruguay's solar equipment production and supply capacity There are a substantial number of local and foreign solar equipment suppliers working within Uruguay's solar market. The most common products available in Uruguay include solar panels, solar inverters, and charge controllers, to name a few.

Does Uruguay have a solar market?

Uruguay's solar market prospects are likely to get better owing to the government's overwhelming support. In 2013, the government of Uruguay drafted several laws aimed at supporting the solar sector. Such favorable regulations are the main driving factors behind the growth of Uruguay's solar market.

Why should you choose a solar project in Uruguay?

Uruguay boasts of eight advanced ports that allow the movement of solar equipment from one market to another. Its logistics sector is also among one of the leading ones worldwide. Consequently, you don't have to worry about transporting your equipment from the port to the project site if the need arises.

How much solar power does Uruguay have?

As of last year, the country's overall installed solar capacity stood at approximately 248 Megawatts. This capacity accounts for 2% of the country's total energy production. Uruguay's solar market prospects are likely to get better owing to the government's overwhelming support.

Is Uruguay a net importer of energy?

Once a net importer of energy, Uruguay now exports its surplus energy to neighbouring Brazil and Argentina. In less than two decades, Uruguay broke

free of its dependence on oil imports and carbon emitting power generation, transitioning to renewable energy that is owned by the state but with infrastructure paid for by private investment.

How does Uruguay get its electricity?

To this day, Uruguay continues to rely heavily on its dams, including the imposing Salto Grande on the Río Uruguay, whose power is shared with Argentina, and several on the Río Negro. For decades, electricity from those dams and from generators running on gas and oil imported largely from Argentina and Brazil met Uruguayans' energy needs.
